Influence of Concentration on Surface Tension & Viscosity of Tamarind (Tamarindus Indica) Seed Gum

Published On: April 04, 2017 | Pages: 008 - 012

Author(s): Sunita Thakur*, Pramod Kumar Sharma and Rishabha Malviya

The influence of concentration (0.125-1%w/v) on viscosity and surface tension of tamarind gum has been studied. This research establishes a direct relationship between concentration and viscosity. ...
New emerging Genetic Disease: A Case Study in Southeast Asia and a new interesting reason

Published On: May 22, 2017 | Pages: 013 - 013

Author(s): Beuy Joob* and Viroj Wiwanitkit

Dear Editor, genetic disorder is usually a big problem in medicine since it is difficult to manage. There are many genetic diseases around the world. ...
