Physician Death by Suicide: Problems Seeking Stakeholder Solutions

Published On: May 25, 2016 | Pages: 020 - 025

Author(s): Tracy D. Gunter*

Each year approximately 400 physicians die by suicide in the United States, leaving an estimated one million patients without their physicians [1-5]. Physicians are two to three times more likely to die by suicide than members of the general population and are more likely to die by suicide than other professionals [6,7]. ...
issue by diminishing the methodological flaws that hinder the internal and ecological validity of previous studies...
