[Labor Epidural Analgesia and Postpartum Depression](#)

Published On: November 14, 2016 | Pages: 044 - 046

Author(s): Catherine D Tobin*, Sylvia H Wilson, Latha Hebbar, Laura L Roberts, Bethany J Wolf and Constance Guille

Background: Although strong association between drinking and depression as well as alcohol-related disorders (ARD) has been reported, the relationship between potential ability to drink (genetic alcohol sensitivity) and depression or ARD is unclear. ...

[Depression, Alcoholism, and Genetic Alcohol Sensitivity Regulated by ALDH2 and ADH1B Polymorphisms among Japanese Community-Dwelling Adults](#)

Published On: September 13, 2016 | Pages: 037 - 043

Author(s): Kouichi Yoshimasu*, Shigeki Takemura, Kanami Tsuno, Mariko Hayashida, Kenji Kinoshita, Kanae Mure, Tatsuya Takeshita and Kazuhisa Miyashita

Background: Although strong association between drinking and depression as well as alcohol-related disorders (ARD) has been reported, the relationship between potential ability to drink (genetic alcohol sensitivity) and depression or ARD is unclear. Genetic alcohol sensitivity is regulated by two alcohol metabolic enzyme genes, ADH1B and ALDH2 polymorphisms. We have a ...

[Electrophysiological Profiling of Depression in the Elderly](#)

Published On: July 23, 2016 | Pages: 031 - 036

Author(s): Jenny L Patterson, J. Bruce Barber, Daniel W. O Connor and Samia R Toukhsati

Frontostriatal system functioning has been proposed to underpin performance on executive functioning tasks; these structures are abnormally activated in adults with depression. In this study, the P200 and P300 event-related potentials (ERPs) were elicited during a classic two-tone auditory oddball task to compare the electrophysiological profiles of elderly people (N ...

[Evaluating Community Health Care Providers Knowledge and Self-Confidence in the Identification, Diagnosis and Treatment of Adolescent Depression in Tanzania](#)

Published On: June 16, 2016 | Pages: 026 - 030

Author(s): Stan Kutcher*, Yifeng Wei, Heather Gilberds, Adena Brown, Omary Ubuguyu, Tasiona Njau, Norman Sabuni, Ayoub Magimba and Kevin Perkins

Background: Depression, which frequently onsets in young people, is projected to become the largest single burden of disease globally in the next decade. Its impact may be disproportionately felt in low-income countries, such as Tanzania, where availability of appropriate care in the community is poor. ...
