Accidentally discovered Portal Vein Thrombosis before Splenectomy due to Hypersplenism - The role of Thrombogenic Genes Polymorphisms

Published On: June 19, 2017 | Pages: 037 - 040

Author(s): Amr Shaaban Hanafy*

Portal vein thrombosis in patients with liver cirrhosis may be due neoplastic growth invading portal vein or due to non-neoplastic causes. The indications for treating PVT in cirrhotic individuals are difficult to be established but at least are of great benefit in acute PVT. Investigating the cause of portal vein thrombosis in cirrhotic patient prepared for splenectomy ...

Constipation during Entecavir treatment in Chronic Hepatitis B patients: Two Cases Reports

Published On: May 29, 2017 | Pages: 027 - 028

Author(s): Meng-Lan Wang, Dong-Mei Zhang and En-Qiang Chen*

Entecavir (ETV) is an oral nucleoside analog inhibitor of hepatitis B virus (HBV) DNA polymerase, which is widely used in patients with chronic hepatitis B (CHB). Despite the excellent safety data of this agent, the adverse events of headache,
diarrhea, nausea and vomiting are recorded in the drug instruction of ETV. Here we report two CHB patients with ETV-associate ...

**Sarcoidosis-Lymphoma Syndrome presenting by severe Cholestatic Hepatitis**

Published On: May 18, 2017 | Pages: 023 - 026

Author(s): Omkolsoum Alhaddad1, Maha M Elsabaawy*, Omar A Shaarawy, Nermin A Ehsan, Doha Maher, Khaled Gmeel, Eman A Rewisha and Imam A Waked

Severe cholestatic hepatitis is an uncommon presentation of either sarcoidosis or Hodgkin lymphoma. Sarcoidosis lymphoma syndrome is a rare disorder with sarcoidosis heralding the onset of lymphoma. Here we report a case of coexisting sarcoidosis-Hodgkin’s lymphoma syndrome presenting with severe cholestatic hepatitis. ...

**The Potential of Liver Fibrosis Indexes/Scores for the Screening of Cryptic Liver Fibrosis in Patients with NASH Risk Factors: A Case Report**

Published On: January 27, 2017 | Pages: 001 - 003

Author(s): Eguiluz M, Andrés-Otero MJ, De-Blas I, Puente-Lanzarote JJ, Lorente-Pérez S, Soria M and Lou- Bonafonte JM

The unintentional discovery of cirrhosis in a patient with prostate cancer lead us to enquire if some of the indexes/scored designed for the evaluation of liver fibrosis/cirrhosis, in Chronic Hepatitis C patients, could have helped us in the detection of incipient liver fibrosis, and its follow up, in this patient. ...

**Hepatitis E: Diagnostic and Therapeutic Challenges**
Hepatitis E virus (HEV) is a globally important water and foodborne pathogen of acute and chronic hepatitis E [1,2]. HEV infection may be symptomatic or asymptomatic that has affected about one-third of world population with a case fatality rate of 1-2%, including 20-30% of infected pregnant women [3-5]. ...
