Introduction: Studies on methods of teaching informatics for graduate nursing programs are limited. This paper discusses the design and evaluation of an IT-related Business Process Reengineering (BPR) Project, one of the main assignments in an informatics course offered jointly for three graduate nursing programs. Challenges and lessons ...
Background: Men and women are differently bodily, as well as have distinctive ways of thinking; consequently, their health care needs are not always the same. For some older adults who enter long-term care facilities, the impact of gender upon their care may not be recognized by staff. ...
