Unplanned pregnancy is a leading reproductive health problem among unmarried adolescents in Nigeria. A clinic and community survey of 1,041 respondents in selected communities of Ijebu North local government area of Ogun State, Nigeria, showed that a substantial proportion of the female respondents (21.5% urban and 8.8% rural) had their first child during adolescence. ...
Over the last years, scientific research has focused its interest on a potential role of hyperuricemia as cardiovascular risk factor; main interest has been directed to persistent raised plasma levels of uric acid. ...
