Factors Associated with Unplanned Pregnancy among Unmarried Adolescents in Selected Communities of Ogun State, Nigeria

Published On: January 02, 2017 | Pages: 001 - 009

Author(s): Adeneye AK*, Erinosho OA, Adeneye AA and Obasi CC

Unplanned pregnancy is a leading reproductive health problem among unmarried adolescents in Nigeria. A clinic and community survey of 1,041 respondents in selected communities of Ijebu North local government area of Ogun State, Nigeria, showed that a substantial proportion of the female respondents (21.5% urban and 8.8% rural) had their first child during adolescence. ...

Reducing the Global Burden of Dengue: Steps toward Preventive Methods

Published On: July 07, 2017 | Pages: 028 - 033

Author(s): Amrita Haikerwal, Madan LB Bhatt and Shailendra K Saxena*

The epidemiological data for Dengue has validated the alarming situation of dengue across the world, which in turn brings a huge population at the risk of dengue infection. ...

Hyperuricemia and global Cardiovascular Risk: State of the art and preventive prospects
Over the last years, scientific research has focused its interest on a potential role of hyperuricemia as cardiovascular risk factor; main interest has been directed to persistent raised plasma levels of uric acid.
