An incidence of diabetes is right away growing everywhere in the world at the startling rate. For the past 3 decades, the prominence of diabetes has been substantially changed, previously it's been taken into consideration as a minor illness of the aged humans. A gift, it has become the most critical cause of morbidity and mortality affecting the young and center-elder ...
In Weimar, on the wall of Albert Schweitzer Museum, there is a memorial tablet which says: “The purpose of our life is to serve, to show solidarity and helpfulness.” The humanist medical doctor, theologian, philosopher, organist could not have expressed more clearly our confession. Behavioral therapy integrates the cure of body and soul, which occasionally show some ...
