Beef cattle value chain analysis: Evidence from West Hararghe Zone of Ethiopia

Published On: November 21, 2019 | Pages: 077 - 087
Author(s): Adunea Dinku*, Bezahagn Abebe, Azeb Lemma and Muhammed Shako
The study was initiated to identify beef cattle value chain actors and their roles, and investigate the determinants of quantity of beef cattle marketed. To achieve this, primary data were collected from randomly selected 171 cattle fatteners, 14 butcheries, 8 hotel and restaurant owners, 8 traders, and 6 consumers using pre-tested semi-structured questionnaire.

Risk management of short supply chain of Momotaro Tomato Commodity in PT. Saribhakti Bumi Agri

Published On: September 26, 2019 | Pages: 068 - 076
Author(s): Azizah Rahmi Raharja*, Agriani Hermita Sadeli, Nur Syamsiyah and Sulistyodewi Nur Wiyono
Momotaro tomato is an introduced vegetable commodity in West Java. Development of introduced vegetables needs an effective and efficient supply chain performance to maintain the quality and quantity of the product until it reaches the consumers. PT. Saribhakti Bumi Agri is an agribusiness company that cultivates and sells introduced vegetables with shorter supply cha ...
Heat treatment of milk is the most widely used processing technology in the dairy industry. It results in many chemical and biochemical changes in milk, the extent of which depends on the temperature-time combinations, the heating method utilized, and milk pre-treatment conditions [1-3]. ...
