Young people’s experiences in accessing sexual and reproductive health services in sub-Saharan Africa from 1994 to 2019 - A content analysis

Published On: May 22, 2020 | Pages: 017 - 026

Author(s): Abubakari Sulemana Watara*, Abu Mumuni, Yidana Zuwera, Apraku Anane Edward, Mutaru Goro Iddrisu and Badasu Delalali Margret

Two and a half decades after the International Conference on Population and Development in 1994, access to Sexual and Reproductive Health (SRH) services by young people is very low, particularly in sub-Saharan Africa (SSA) despite the increasing resources being targeted at addressing the SRH needs of young people.

Second-birth fertility desire and social factors in married women in Zhejiang province, China: A cross-sectional study

Published On: April 24, 2020 | Pages: 012 - 016

Author(s): Chunyan Zhou, Haiyan Xing* and Wei YU

Background: After the universal two-child policy in China, the Second-Birth Fertility Desire (SBFD) has aroused widespread concern. There have been some research on SBFD, however, current reports on social factors and SBFD are not detailed. The objective was to investigate the impact of social factors on SBFD and to explore correlation between them. Methods: By strat ...
