**Buprenorphine Maintenance for Opioid Dependence in Public Sector Healthcare: Benefits and Barriers**

Published On: August 13, 2015 | Pages: 031 - 036

Author(s): Laura G Duncan, Sonia Mendoza* and Helena Hansen

Background: Since its U.S. FDA approval in 2002, buprenorphine has been available for maintenance treatment of opiate dependence in primary care physicians' offices. Though buprenorphine was intended to facilitate access to treatment, disparities in utilization have emerged; while buprenorphine treatment is widely used in private care setting, public healthcare integr...

Tramadol Dependency Treatment: A New Approach

Background: Tramadol induced disorder is a new problem. Objective: To explain the efficacy of low dose of clonidine, baclofen and ibuprofen (NSAID) in the treatment of severe and chronic tramadol dependency (2000 mg daily). Method: To evaluate the usefulness of non-narcotic drugs in the management of severe tramadol withdrawal symptoms.

The Effects of Substance Abuse Following Personal Injury: Five Case Studies from a Medico-Legal Context

The purpose of this paper is to describe the multivariate effects of compensable injury on addictive behaviors, especially in relation to substance abuse. Five case studies are broken down into (a) post-accident addiction and (b) pre-accident addiction. These vignettes indicate that within a personal injury the problem of substance use or abuse is hardly independent of ...
