**Dietary intake of vitamin D in the Moroccan adolescents**

Published On: December 31, 2017 | Pages: 023 - 025

Author(s): El-houcine Sebbar*, Hicham Sam, Ennouamane Saalaoui and Mohammed Choukri

Aims: Most epidemiological studies show that vitamin D deficiency is frequent in the general population including adolescents. The aim of our work is to evaluate the dietary intake of vitamin D in the Moroccan adolescents. Methods: This study included 257 Moroccan adolescents who performed a vitamin D questionnaire (VDQ), covering the consumption of four foods wi ...
Aim: Vitamin A plays a role in mucosal immunity and tolerance, but the association between vitamin A status and allergy is still unclear. The aim of the study was to analyze the levels of vitamin A in serum from adolescents with or without atopic rhinoconjunctivitis. Method: Thirteen-year-old children with atopic rhinoconjunctivitis (n = 53) and non-allergic, nonse ...

**Quality assessment of stored fresh Cassava Roots and ‘fufu’ flour produced from stored roots**

Published On: August 03, 2017 | Pages: 009 - 013

Author(s): Omosuli SV, Ikujenlola AV, Abisuwa AT

The aim of this study was to assess the quality characteristics of cassava roots and fermented cassava flour (fufu). Matured cassava was carefully uprooted and stored in high density polyethylene bag for a period ranging from 0 to 10 days. ...
