Published On: November 11, 2017 | Pages: 020 - 022

Author(s): El-houcine Sebbar*, Hicham Sam, Ennuoumane Saalaoui and Mohammed Choukri

Purpose: Calcium needs vary in function with age, sex and individuals. Needs are increased in adolescents. The aim of our work is to evaluate the calcium intake in the Moroccan adolescents. Methods: The version translated into Arabic dialect Fardellone questionnaire is tested on a sample of 257 Moroccan adolescents aged between 14 and 17 years old. ...

Serum levels of Vitamin A and Atopic Rhinoconjunctivitis in Swedish adolescents

Published On: September 12, 2017 | Pages: 014 - 019
Aim: Vitamin A plays a role in mucosal immunity and tolerance, but the association between vitamin A status and allergy is still unclear. The aim of the study was to analyze the levels of vitamin A in serum from adolescents with or without atopic rhinoconjunctivitis.

Method: Thirteen-year-old children with atopic rhinoconjunctivitis (n = 53) and non-allergic, non-se ...
