Socio-Demographic Determinants of Antepartum Fetal Death

Published On: March 18, 2017 | Pages: 015 - 018

Author(s): Awoleke Jacob Olumuyiwa* and Adanikin Abiodun Idowu

Background: Antepartum fetal death (AFD) contributes significantly to stillbirths (SB) in low- and middle-income countries (LMIC). Modifying locally-prevalent demographic risk factors could lessen the burden of SB in the region. ...

Effect of Intrauterine Infusion of Granulocyte Colony Stimulating Factor on IVF Outcomes in Infertile Women

Published On: March 03, 2017 | Pages: 011 - 014
