Socio-Demographic Determinants of Antepartum Fetal Death

Published On: March 18, 2017 | Pages: 015 - 018

Author(s): Awoleke Jacob Olumuyiwa* and Adanikin Abiodun Idowu

Background: Antepartum fetal death (AFD) contributes significantly to stillbirths (SB) in low- and middle-income countries (LMIC). Modifying locally-prevalent demographic risk factors could lessen the burden of SB in the region. ...

Multi Centric Paget’s Disease and Review of Literature

Published On: January 31, 2017 | Pages: 005 - 007

Author(s): Zohreh Yousefi, Marjanee Farazestanian, Amir Hosein Jafarian, Laya Shirinzadeh* and Anahita Hamidi

Introduction: Paget’s disease of the vulva (PDV) is a very rare malignancy originating in vulvar apocrine gland-bearing
skin cells. Based on multi centric nature of Paget’s disease, it’s a chronic and relapsing course. The aim of this report is to introduce a case of multi centric Paget’s disease and review of literature. ...
