Closed removable thread vascular anastomosis stent (Lasheen Vascular Stent)

Published On: August 08, 2019 | Pages: 071 - 073

Author(s): Ahmed E Lasheen*

Background: Vascular anastomosis is a most common and important part of many reconstructive transplant procedures. Venous anastomosis can be done by using coupling devices. ...

Internal urethral stent (Lasheen urethral stent) for hypospadias repair

Published On: August 08, 2019 | Pages: 068 - 070

Author(s): Ahmed E Lasheen*

Background: Hypospadias is a relatively common congenital defect of the male external genitalia. There is much controversy about using of the urethral stent with hypospadias repair. Our study offers new urethral stent (Lasheen urethral stent) to facilitate repair procedure, more comfortable, and improve outcome. ...

General surgery under limited conditions on the Syrian border

Published On: August 05, 2019 | Pages: 066 - 067

Author(s): Mustafa Senturk*
Aim: People living in the countryside are less to have access to health care than those living in the city center. In addition to this, when migrants are added, it becomes more difficult to use health services. Although 20% of the US population lives in rural areas, only 9% of physicians work in these areas, and general surgeons seem to be inadequate in small ru ...
Peripheral facial paralysis causes asymmetry of the face affecting the upper and lower territories. Its management requires the completion of an initial clinical assessment in order to specify the topography, the severity of the involvement, the etiological nature and the possible complications. The knowledge and the mastery of the anatomo-physio-pathological bases ...

Cutaneous syncytial myoepithelioma: A potential pitfall in the differential diagnosis of superficial dermal tumors

In the spectrum of myoepithelial tumors of the skin, cutaneous myoepithelioma is composed solely of myoepithelial cells. Cutaneous syncytial myoepithelioma as a rare histological variant of cutaneous myoepithelioma has been first described in the last decade. This tumor is benign and rarely shows recurrence when incompletely resected. ...
