Retinoblastoma (RB) in Saudi Arabia- Retrospective Comparative Review of a Registry

Published On: December 02, 2015 | Pages: 015 - 020

Author(s): Amir Pirouzian*

Abstract Purpose: Published data regarding retinoblastoma in Saudi Arabia (KSA) is sparse. The study will present comparison of clinical and pathologic features, and evolving patterns of the treatment during 1983-1997 (Early group=EG) to 1998-2012 (Late group=LG) periods from an RB registry representing all Rb cases in KSA. ...

Femtosecond Assisted Deep Lamellar Keratoplasty in a 4½ Year Old Child for Traumatic and Infectious Corneal scar- A Case Report

Published On: November 30, 2015 | Pages: 011 - 014

Author(s): Amir Pirouzian*

Abstract Purpose: To report a case of central deep corneal scar secondary to trauma and subsequently resolved fungal infection in a 4½ year old and secondary amblyopia treated with femtosecond-assisted deep lamellar keratoplasty (FALK). ...

Oral Desensitization in Nursling with Cow’s Milk Allergy
Published On: November 23, 2015 | Pages: 005 - 008

Author(s): Carlos Alberto Sánchez Salguero*

Abstract Food allergy is a major public health problem affecting nearly 10% of children in most industrialized countries. Unfortunately, there are no effective therapies for food allergy, relegating patients to simply avoid the offending foods and treating the reactions which occur on accidental exposure. Recently however, studies suggest that ...

Diaphragmatic Eventration Misdiagnosed as Diaphragmatic Hernia in a Preterm Infant with Respiratory Distress: A Case Report and Review of Diagnosis and Management

Published On: September 25, 2015 | Pages: 001 - 004

Author(s): John Bishara*, Sathyaprasad Burjonrappa, Melodi Pirzada and Claudia Halaby

Abstract Introduction: Eventration of diaphragm is a congenital anomaly that results from a failure of muscular development of part or all of the hemidiaphragm. Clinically, eventration of diaphragm refers to an abnormal elevation of an intact diaphragm. In some cases, it may be difficult to distinguish it from congenital diaphragmatic hernia (CDH) ...

Improving Pediatric Care for Epileptic Children - What Does the Pediatrician Needs to Know about Antiepileptic Drugs?

Published On: November 24, 2015 | Pages: 009 - 010

Author(s): Khaled Saad*

While sharing a common property of suppressing seizures, antiepileptic drugs (AEDs) have many different pharmacological profiles that are relevant when selecting and prescribing these agents in children with epilepsy and other conditions. This includes pharmacokinetic properties, drug-drug interactions, and side effect ...
