Ankle Fractures in Children

Published On: September 20, 2019 | Pages: 018 - 021

Author(s): Samena Chaudhry* and K Dehne

Ankle Fractures in the paediatric population are among the most common physeal injuries. Trauma around the ankle often results in distal tibial metaphyseal fractures in the very young child, medial and lateral malleolus fractures in middle childhood (McFarland fractures) and transitional fractures in adolescence (Tillaux and Triplane fractures).

Gamma angle, a measurement tool of the femoral head angular translation in adults hips with cam or mix form of impingement femoroacetabulare

Published On: August 22, 2019 | Pages: 012 - 017

Author(s): Vladimir Andjelkovic*, Zoran Andjelkovic and Dušan Stojanovic

Femoral head translation leads to the cam deformity development. It is formed on the femoral head-neck junction. Cam deformity produces femoroacetabular impingement. There are no particular techniques for femoral head translation assessment. The offset index is the most regularly applied. It quantifies the relation between the femoral head and neck junction. We in ...

Rib fractures and nerve block. A 84 case study

Published On: July 20, 2019 | Pages: 010 - 011

Author(s): Efthathios K Metaxas*, Ioannis Stamatatos, Sophia Ispanopoulou, Konstantia Bouchra, Stamatia Georgoudi, Areti Falara,
The aim of the study is to determine the importance of nerve block in rib fracture patients. Methods: During the period January 2017- December 2018 a retrospective study took place. Eighty four patients diagnosed already with rib fractures underwent nerve block by thoracic surgery department at General Hospital of Nicaea-Piraeus, Greece...
Psychosis, dissociation or simple aggression may have similar clinical presentations. A case in a resident facility for trauma treatment is presented and discussed. Getting triggered by someone often happens in patients with dissociative disorders after childhood traumatization, rarely so in psychosis. Aggressive acts may also be seen without apparent connection to tr ...
